AUGUST 8 1994

Dear MR AND MRS Weisberg:

Hi How ARE YOU? I AM writing To Tell You I HAVE RECEIVED in the MAIL TODAY YOUR "OSWALD IN NEW ORLEANS" Book.

Thank You very much I know I will enjoy it.

AT The Moment I AM Reading your "Selections From WhiteWASH" (1994 Carroll AND GRAPH) which I FOUND while recently home in New York ON LEAVE. I FIND it very excellent, learning, and enjoyable Reading.

Please Allow me to continue I would like to let you know more about what I've been Doing. Thank You.

I Keep A note book so that I may write DOWN FACTS From The Books I READ AND The FILMS I WATCH I INDICATE this mark (—) OF what ARE FACT AND (*) OF my opinion While traveling FROM My Last Duty station (ADAK, ALASKA) to here I thought I Lost my paperwork, But RECENTLY I FOUND it AND have Continued From memory AND From What I have recently read. (MY Beatles & JFK stuff ARE WELL taken care of) I would like to bring up two points on the ASSASSINATION One OF my own opinion and one OF FACT.

(1)

① The other Day a thought Fell into my head, But I can't remember reading it. All my Books are home and I wasn't on my Fact Sheet so I put it on so I would Remember it, here it is. Could the rifle (Manlicher Carcano) have been planted on the sixth Floor in advance (what I mean is Days Prior To Nov 22) by the Conspirators. I think so. I Reviewed the Books I have here (ex First Hand Knowlege by Morrow, Jean Hills book, And James R Duffy's highly worthless, "Original" and boring "Conspiracy" (1988). The only other Books that boring an "dumb" are "Mortal ERROR", and Blakeys trash Called Fatal Hour" (yuk)

② The other concerns the medical evedence. ~~The~~ The body, xRay, pictures Controversey. What I mean is "Best Evedence" by David Lifton and "High Treason" By Groden/Livingstone (Also Kidling the truth, High Treason 2, And The killing of A President. This Area is honestly where I'm stuck but willing too exept either. When I was home I posed the question to two of my Freinds one knows alot about art and a highly excellent artist. And The Other one is an EMT and has a highly Medical Knowlege One (the Artist Kevin) said it's really not at all hard to Forge a Picture he said with the right equiptment you can Do it. My EMT Freind Rob said with the right equiptment you could change a body. I showed them Both my Books on they studyed them (the pictures) And said they would have to get a better →

Idea of Both opinions. Personally I Food Lifton and his Book Enjoyable. And the same with Groder & Livings tone. Again I would exept either with out Knocking the other. I need A Better UNDERSTanding of the Medical evedence. I know the basics of the Parkland/ and Bethesda. I know enough to keep a conversation on both going. But I would like more. And Are more the willing to Read them all over (Not like before more of A Reference Reading). The medical evidence Section is Probably my weak point in Knowlage. So I'll just continue to learn about the Forged Body OR Forged Pictures. more and more.

Thank you very much For your time and again For your Book. I will most Likely order some Moor Sometime soon.

Best Wishes to you

James M Cuddy
